

Dear All,

We are transitioning from a common WiFi authentication system to individual authentication for enhanced security. As part of this migration, all users are requested to visit the **web portal** and update their passwords before the transition.

Web Portal Details:

- **URL:** 192.168.2.253
- **Username:** Your Roll Number (for students) / Staff ID (for faculty)
- **Default Password:** sece@123

Instructions for Password Update:

1. Log in to the portal.
2. Navigate to the **Preference** section on the left panel.
3. Select **Change Portal Password** (for this portal access).
4. Select **Change Auth Password** (wifi password for your device).

Please complete this process at the earliest to ensure a smooth transition.

- Note:**
1. Keep your credentials confidential; you are solely responsible for any transactions made using your username.
 2. Change the default password immediately and avoid using it.

Change Portal Password (for portal access)

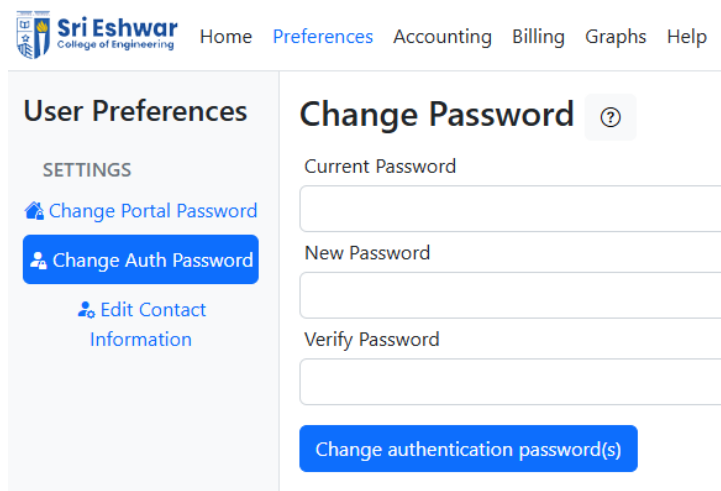

<Current password : sece@123>

The screenshot shows the 'Change Portal Password' form. The header includes the Sri Eshwar College of Engineering logo and navigation links: Home, Preferences, Accounting, Billing, Graphs, and Help. The left sidebar, titled 'User Preferences', contains a 'SETTINGS' section with three options: 'Change Portal Password' (highlighted with a blue button), 'Change Auth Password', and 'Edit Contact Information'. The main content area is titled 'Change Password' with a help icon. It contains three input fields labeled 'Current Password', 'New Password', and 'Verify Password'. A blue button at the bottom is labeled 'Change portal login password'.

Change Auth Password (wifi password for your devices)

<Current password : sece@123>

The screenshot shows the 'Change Auth Password' form. The header is identical to the previous form. The left sidebar, titled 'User Preferences', has the 'Change Auth Password' option highlighted with a blue button. The main content area is titled 'Change Password' with a help icon. It contains three input fields labeled 'Current Password', 'New Password', and 'Verify Password'. A blue button at the bottom is labeled 'Change authentication password(s)'.

You're all set with your new credentials!
